

AUTUMN 2022

MADE IN BREDARYD - SWEDEN

More and more people are choosing local alternatives of sustainably produced products, with new thinking, innovation and flexibility in focus. All of this is central to our offering and we believe that we offer “the world’s best advertising spaces”.

With us, you shop sustainably, and most of our products are manufactured in Bredaryd, Småland. Local production produces a low CO2 footprint while products and processes meet the highest demands from end customers and other stakeholders. We do everything from innovation, design, tool manufacturing, injection moulding, laminating, sublimation, laser engraving, screen printing, digital and pad printing, all in order to provide the most complete and controlled production and process possible.

Our materials are selected with care where use, life expectancy and possible recycling are taken into account, and the total impact that our product has and can have during its life cycle is evaluated. Our materials include recycled used materials from refrigerators, organic-based polymers from sugar cane, standard polymers suitable for circular recycling and wood fibre products with a negative CO2 footprint in the product.

Many of our products replace disposable products and often have more than one feature incorporated into their design. For example, the JavaGo thermal mug which during its lifetime replaces disposable mugs in quantity and the ice scraper which also contains an innovative parking dial. Both of these are, of course, also available in recycled and organic materials as alternatives.

If you choose Plastprint – you choose a Swedish, sustainable and innovative partner that is the only complete provider of cost-effective and sustainable advertising spaces, where most of the products are produced, printed and handled in Sweden.

Join us on our sustainability journey!

PLASTPRINT SETS EXTRA HIGH DEMANDS ON THE MATERIAL AND SERVICE. YOU SHOULD DO THE SAME.

As a market leader in several of our product areas, it is obvious to deliver the right quality on time and to offer fast and efficient service. Plastprint also places the highest demands on suppliers and components in our products.

We reward local suppliers for reducing transport, we encourage innovative material solutions and we believe that the solution offered by us and our suppliers contributes to our being one of Scandinavia's strongest advertising suppliers

Our brand is characterised by innovative solutions, sought-after advertising space and a wealth of knowledge and expertise in printing and production. Within Plastprint, almost everything is done under one roof, or two, since our production area is divided into two adjacent properties in Bredaryd Småland.

Here we design new products, manufacture tools and fixtures, choose materials, moulding machines and blow moulding. Then we laminate, engrave and print our products, mainly manufactured in-house.

We have solid experience in digital, screen and domestic printing, and the collective competence of our fantastic employees is more than 200 years. We are one of the few in the industry who master the entire chain from production to printing, thereby offering full traceability and full control.

We are the alternative when you want to be sustainable, not just perceived as sustainable.

Sustainable in so many ways:
The world's best advertising spaces

THE BRAIN FILTERS OUT 95% OF ALL SENSORY PERCEPTIONS. IT'S A GOOD THING THERE ARE PROMOTIONAL PRODUCTS!

Each day the average person receives thousands of messages via different media channels. The brain, in order to be able to choose what is of interest, has to remove approximately 95% of the noise. If you instead place your brand on products that show up in a completely dif-

ferent context – during leisure time, on an icy morning or a coffee break – you get a completely different effect. It then sinks in, grows and becomes a positive part of people's everyday lives.

EFFICIENT

In addition to the fact that product media has a long life, it also impacts on many of your senses. That's more than you can say about an ad. By placing promotional media in different contexts, it is easier to produce positive brand associations.

POPULAR

Six people out of ten use promotional products. And one out of three use them every day. It's a great way to expose your brand to your target audience.

VALUE FOR MONEY

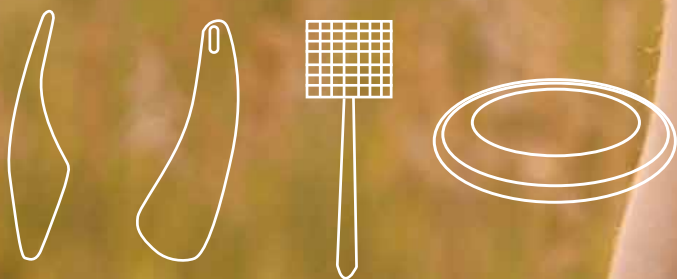

Did you know you can print any message you want on 90,000 ice scrapers for the same cost as a full page advert in Aftonbladet. The ice scraper is there to rescue you on icy mornings over a period of several years, while you throw the newspaper away the following day.

Träkomposit – ett spännande alternativ

Väljer du småländska Plastprint väljer du en svensk, hållbar och innovativ partner. Vi har genom egen produktion och stark innovationskraft tagit fram en serie produkter i förnyelsebar träkomposit.

*Upptäck våra nyheter i träkomposit.
Smörkniv, skohorn, flugsmälla och frisbee.*

Where movement and activity are created, we want your brand to be visible. At the sports day, outdoor activities or festivals. Raise your brand!

Active

In this section you'll find both products with large printing surfaces and products that can be distributed in generous quantities. Perfect for when you want your brand to stand out from the crowd, e.g. at trade shows.

Soft Reflective Hanger

A hanger always hangs around! Pin it inside the jacket pocket or to the zipper, and take it out once it's dark. We manufacture our safety reflectors using a qualitative approved reflector material and deliver the product in a bag with a string and safety pin or with a ball joint in metal. According to European Standard EN 13356, a hanging safety reflector must have at least 15 cm² of reflective surface, which is why we always put the print underneath the reflective material. For backside print, 15% is added to the regular price.

Soft Reflective Slap Wrap

A safety reflector to slap on. It wraps quickly around your arm or leg. Just like our hangers, slap wraps are manufactured using a qualitative approved reflector material. Again, we put the print underneath the printing surface to comply with European Standard EN 13356. Available in white or yellow reflective material. Also available with custom background color underneath white reflector.

Dimensions: 340 x 30 mm.

Maximum printing surface: 340 x 30 mm.

Good to know about reflectors

Reflectors save lives! Yet still only a few adults use reflectors. Most people think that as long as we can see the vehicle the driver can see us, but on dark and wet roads it is virtually impossible to detect pedestrians not wearing reflectors in time.

This is how a soft reflector is made

Our soft reflectors are manufactured using an approved and highly reflective quality material. A reflector hanger is built up of two layers of the reflective film to reflect from both sides. The print is made on a white liner that is placed between the transparent, reflective layers - in white or fluorescent yellow material - before the reflector is fitted together. This ensures a 100 % effective reflective surface.

Soft Reflective Slap Wrap Xtended

Finally, a slap wrap for larger outer clothes. Just like the popular Slap Wrap, it wraps quickly around your arm or leg. It is manufactured using a qualitative approved reflector material according to CE EN 13356. Available in white or yellow reflective material. Also available with custom background color underneath white reflector.

Dimensions: 420 x 30 mm. **Maximum printing surface:** 420 x 30 mm.

Tire Marker

Now there is a new smart tire marking. It is good to rotate the front tires to the back, and vice versa, to even out the wear on the tires; provided there is no major difference in tread depth/grip. In which case, the best tires should be on the back wheels. The tires should also turn in the same direction, so do not move the tires to the other side of the car. Which is why it is good to keep track of which wheels the tires were on when reattaching them. 1-4 colour prints or photo prints.

Dimensions: 120 x 100 mm. **Maximum printing surface:** 29 x 45 mm x 4 pcs

KOCKUMS®
JERNVERK · SWEDEN

Enamelled steel mug

The retro-like and stylish mug from Kockums can be used for hot and cold beverages or serving. Enjoy a hot cup of tea at the kitchen table, morning coffee on the balcony or wherever you want something nice to drink from. A real classic! Kockums enamelled mug has a double layer of high-quality enamel that effectively resists dirt and stains and is easy to clean. The products are manufactured with care and precision. Kockums take the greatest possible consideration for people and the environment, so each mug is made from natural raw materials. Each product is completely unique as enamelling is a craft that can cause small changes in colour and irregularities. The mug is dishwasher safe, but to retain the lustre of the enamel we recommend washing by hand. Mugs with advertising print do not tolerate ovens or stoves. Also available with engraving on the bottom of the mug.

Dimensions: 37 cl. Height 80 mm. **Maximum printing surface:** Ø 45 mm.

Surveys show that with a giveaway which you have received in your hand, the likelihood that your brand will be remembered or that you choose to buy a product from this company or create a relationship with the company within 12 months increases by 80%.

Our catalogue contains superb advertising spaces, innovative products, colours and shapes in an incredible variety, all to help you find something that suits your event, special marketing activity or as a nice and good giveaway.

But our soft values are hard to capture in written form. Service, flexibility and commitment can only be demonstrated by testing us and our offer. About 40 dedicated, talented and incredibly committed people work in our premises who want to do everything to make your experience with our company as good as possible.

If you are missing something, you want a unique solution, a different colour, shape or packaging. Please contact us at our customer service. We are here to find solutions and assist you in your brand's optimal exposure regarding cost, function and at the same time make it responsible and sustainable.

Plastprint is unique in so many ways, with its large share of in-house manufactured and custom designed products, unique level of innovation, efficient processes and through responsibly manufactured and printed products. Here, Plastprint is your preferred choice when it comes to promotional products. We take great pride in providing Scandinavia with the best advertising spaces and we do it in a sustainable and efficient manner and with joy and commitment.

Lars Rubensson

Managing Director, Plastprint

Plastprint – The Company Of Opportunities
